Epson Launches New Compact 4K PRO-UHD Home Entertainment Projector, EH-TW7000

SINGAPORE, 30 January 2020 – [Epson](#), the number one projector manufacturer worldwide^[1], has launched their new home entertainment projector, the **EH-TW7000** – powered by the latest 4K PRO-UHD^[2] technology for the beginner home projector enthusiast.

The EH-TW7000 is engineered to deliver an exceptional home theatre viewing experience at an affordable price point, with up to 3,000 lumens of

equal colour and white brightness for bright, vivid images with brilliant colour.

One of Epson's most compact and affordable 4K PRO-UHD projectors to date, the new home entertainment model uses advanced processing technologies for resolution enhancement, colour and image processing, and is able to upscale Full HD contents.

Ms. Tan May Lin, Director – Sales, Marketing and Customer Service of Epson Sales division, Epson Singapore said, "With the EH-TW7000 projector, Epson continues to expand its line of 4K PRO-UHD solutions for a high quality, immersive viewing experience across a range of viewing environments. The EH-TW7000 packs together the brightness, colour accuracy and features at more affordable price points, providing the ultimate 4K blockbuster home theatre experience."

The EH-TW7000 projector has a range of connectivity options to media devices, including its 'smart projector' feature, where users can easily plug a USB-powered media device to enable screen mirroring. The EH-TW7000 also includes Bluetooth wireless speaker support and aptX™ compatibility.

With support for the latest 18 Gbps HDMI 2.0 specification, the projector displays exceptional 4K HDR content at full 60 fps from the latest streaming devices and gaming consoles. With a wider HDR range, the projector delivers brighter images with greater accuracy in brightness adjustments.

The EH-TW7000 projector features Epson Precision Lens technology, a proprietary multi-element Precision Glass structure for outstanding image clarity and focus uniformity. Designed for flexible installation, the projectors come with wider lens shift range – up to ±60 percent on the vertical axis and up to ± 24 percent on the horizontal axis.

The new EH-TW7000 projector is now available and retails exclusively at KEC Sound & Vision and Arts of Entertainment for S\$2,099 (inclusive of GST). For product and purchase enquiries, please contact Epson Singapore for more details.

[\[1\]](#) Based on FutureSource Quarterly Market Insights Report – Epson is the no. 1 worldwide market leader for the past 18 years. For 2018, Epson's

market share is 37.4% for 500-lumen and above brightness categories.

[2] 4k Enhancement Technology shifts each pixel diagonally to double Full HD resolution. Resolution is full HD in 3D mode.
